

How to Assemble your Feather Flag

Flag Hardware Indoor X-Stand/Cross base

1. flag pole
2. x-stand / cross base
3. cord
4. travel bag
5. water tube (to stabilize the flag)

Make sure all the hardware is ready to go.

Flag Hardware Outdoor Ground-Stake/Spike base

1. flag pole
2. spike base
3. cord
4. travel bag

1
Connect the poles.
Thickest at the base and thinnest with the rubber tip at the top.

2
Slip on the fabric banner, starting from the top.
Slide all the way until it cannot go any further.

FOR OUTDOOR BASE

4
Remove the protective cover and drive the spike into the ground. Make sure it is deep enough.

5
Insert the bottom of the pole into the ground spike.

3
Tie the elastic cord through the grommet at the bottom of the flag. Then fix the hook to the bottom of the pole.

FOR INDOOR BASE

4
Rotate the X Stand rotate until they are perpendicular to each other.

5
For extra stability, fill the water tube and place on top.

5
Insert the bottom of the pole into the X Stand
